### 📄 PROFILE

---

My name is Ihsan Sunman and I am 22 years old. Technology have been in my life since I was a kid and I have always loved anything related with computer. I started to code and design at a very young age. Most of my skills and knowledge are selftaugh. I've studied Management Information Systems at Anadolu University and Computer Programming at Eskişehir Technical University. I took the C#, C ++, C, Visual Basic, HTML5, CSS, ACCESS, SQL and Kotlin course. I completed "Trendyol Android Mobile Development Bootcamp" organized by Kodluyoruz. I attended the "FrontEnd Developer Challenge #1" and "Bootcamp Accelerator Program" organized by Patika.Dev.
